Here is one refusal you can put in the file. We should also submit it as an IDS, since he seems to be suggesting he did related work at someplace called "Cruises Only"...whatever that is.

Dear Mr. Bear, I received your letter regarding the above. As I had previously discussed with you several months ago, my intention is to not sign these documents, based on the fact that the cruise side of your system is basically the combination of all my efforts while at Cruises Only, to create a comprehensive system that would allow the company to control all the group allocations in a timely and effective manner. It makes no sense for me to take a chance, since my ideas down the road, might entice another company to create a system similar to yours from the operational viewpoint, unless you are willing to provide some sort of remuneration for the signatures.

My personal e-mail is-mquin33885@aol.com <mailto:is-mquin33885@aol.com> and my address has changed to 824 Camargo Way #105, Altamonte Springs, Fl 32714
